**Vaccination Protocol**

For your dog's protection, all vaccines must be current. We require written proof or phone confirmation from your referring veterinarian of vaccinations, including Rabies 1 or 3 year, DHPP, and a 6 month Bordetella, for any dog that stays at Haile Plantation Animal Clinic. If you are unable to provide proof of these vaccinations, a HPAC doctor will provide a comprehensive physical examination and give appropriate vaccinations, which are your financial obligation. We charge \$138.00 for an adult dog's exam, DHPP, Rabies, and Bordetella. Please note that many vaccines do not take affect for 3-7 days, so be sure your dog is vaccinated before boarding for optimal wellness. Your dog must be free of internal and external parasites. Every boarding animal gets an intake exam by our Kennel staff and if fleas are found it is mandatory that we administer a dose of capstar at your expense. If ticks are noted your pet will not be able to board at our facility.

I agree to and understand this policy. **IMPORTANT:** If my dog has a serious illness or injury, and in the event such illness or injury becomes critical during my absence, I want the doctors and medical team of HPAC to:

Resuscitate my dog                      or                      Do not resuscitate my dog
